

Mystery Christmas Advent Calendar 2022

How to access the daily motif

For those with the Full Kit... Simply open envelope number 1 on the 1st December and then follow the directions below.

For everyone else... Use the super secret password (given in your purchase information) to access the secret Advent Page on the blog.

On the 1st December, there will be a download link where you can access the motif for day 1 - simply print this out and get ready to follow the directions below for transferring the motif to your fabric.

How to transfer the daily motif

For those of you who have traced your pattern template on to the fabric yourself - remember I said not to use Sticky Fabri Solvy as the transfer method - this is because you need to use this for the motifs and it wouldn't work for both.

For those with the Full Kit... Your motif is provided pre printed on to Sticky Fabri Solvy so just follow along from the bit where you peel off the backing paper...

For everyone else... You will need:

Sticky Fabri Solvy Water Soluble Stabiliser (1 sheet is enough to complete the whole calendar).
Pen - Frixion will do.
Sharp Embroidery Scissors

Directions...

Simply trace your motif on to the fabric/soft side of the Sticky Fabri Solvy

Cut around the motif leaving approx 1/4 - 1/2 inch extra around the edge

Peel off the backing paper

Stick the motif inside the correctly numbered circle (so Day 1 - pop the motif in circle 1)

Make sure the motif is sitting inside the circle and not on the edge.

Time for Stitching

The colours and stitches used will be given on each day for that particular motif.

For those with the Full Kit... Your threads and stitch guide are provided each day.

For everyone else... You can use the exact same colours - details are provided in your purchase information. Alternatively use your own!

Repeat Each Day

Simply access the template each day (from your kit or from the password protected page), transfer to your fabric with the sticky fabri solvy and stitch away!

The design will be revealed as you go along and if you manage to keep up - you will be stitching your last motif on Christmas Day!
